FOUR WEEKS IN HOSPITAL

Mrs. Brown Finally Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Cleveland, Ohio.—"For years I suffered so sometimes it seemed as though I could not stand it any longer. It was all in my lower organs. At times I could hardly walk, for if I stepped on a little stone I would almost faint. One day I did faint and my husband was sent for and the doctor came. I was taken to the hospital and stayed four weeks but when I came home I would faint just the same and had the same pains.

A friend who is a nurse said for me to try Lydia E. Pinkham's Vegetable Compound. I began taking it that very day for I was suffering a great deal. It has already done me more good than the hospital. To anyone who is suffering as I was my advice is to stop in the first drug-store and get a bottle of Lydia E. Pinkham's Vegetable Compound before you go home."—Mrs. W. C. Brown, 1109 Auburn Avenue, Cleveland, Ohio.

Why not take Mrs. Brown's advice? Write for free and helpful advice to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

PRISONER AVERS YANKEE CAPTAIN BELIEVED GOMEZ TO BE BLUFFING

Mormon Scout, in Story Given Out Through Trevino, Says American Commander Was Obstinate.

AT LEAST THIRTEEN DEAD ON BATTLEFIELD

Two of Victims Were Officers; Detachment Composed Chiefly of Negroes; Captives Well Treated.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Chihuahua, Mexico, June 22.—The seventeen American soldiers, negro troopers of the Tenth cavalry, who were captured in the battle at Carrizal, were brought here today with Lena H. Spillbury, a Mormon scout employed by Gen. J. J. Pershing, and were interned.

Detachment of Eighty. Spillbury said that Capt. Charles T. Boyd, who was reported killed in the Carrizal engagement, was looked upon as one of the most able men of the Tenth cavalry in 1897.

During the Spanish-American war he served as a major in the Thirty-seventh United States infantry, a volunteer regiment, being honorably mustered out in 1901. He also saw considerable service in the Philippines.

In 1901 he was in the regular service again, being transferred to the Fourth cavalry as a first lieutenant. He was made a captain of the Tenth cavalry in 1904.

Lieutenant Henry D. Adair, who also was reported killed, was noted in army circles as a polo player. He was born in Oregon in 1882, April 12, being appointed to West Point in 1900. He was made a second lieutenant in the Tenth cavalry in 1904, and was promoted to a first lieutenant in the Tenth in 1910.

In 1901 he was in the regular service again, being transferred to the Fourth cavalry as a first lieutenant. He was made a captain of the Tenth cavalry in 1904.

AUSTRO-GERMANS TAKE OFFENSIVE FROM HANDS OF RUSSIAN ENEMY

Teutonic Allies Apparently Have Stopped Slay Drive Westward; Claims Are in Conflict.

GREECE YIELDS TO ENTENTE'S DEMANDS

Demobilization of Army, Formation of Neutral Cabinets and New Elections Are Among Terms.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

The Germans and Austrians in Volynia are vigorously on the offensive against the Russians and seemingly have stopped for the time being at least the Russian drive westward. Along the Stokhod river west of the Syr in the region of Sokol and still farther west around Myk sanguinary engagements are in progress.

In these encounters the Russian war office says the Germans and Austrians have been repulsed while Berlin declares that on both sides of the Turia river and southward from Rivnauki to Grochow the Russians have been driven farther back.

Russians Take Trenches. On the Stripa in Galicia the Russians have taken portions of the trenches of the Teutons near Galvornia and farther south in Bukovina have driven their forces farther southward and captured Radnau, about thirty miles below Czernowitz and taken more officers, men and guns.

From north of the Prout marshes to the region of Lica, the Germans again have opened what apparently is a general offensive, heavily bombarding Russian positions or throwing violent infantry attacks against them.

German Retire at Verdun. On both sides of the River Meuse, in the region of Verdun and to the east of the fortress in the Woivre at the foot of the Meuse hills, the Germans are heavily bombarding the French. Especially heavy are the attacks against Hill 294, and Le Mort Homme, northeast of Verdun and northeast of the fortress around Thiaumont, the Vaux wood, Chaplure and Port Lauffe. In a counter-attack the French have retaken most of the trenches the Germans captured Wednesday night between the Fumil wood and Chenois, northeast of Verdun. The Germans near Giverny captured British trenches, but later were driven out, suffering heavy losses.

Greece Yields to Entente. The ultimatum of the entente powers to Greece has been yielded to by the Hellenic kingdom. The demands include complete demobilization of the Greek army, the formation of a cabinet neutral to the entente allies, the holding of new elections and the reconstruction of the government. The Greek cabinet already has resigned and another is in process of formation.

CARRANZA'S MEN
SHOT AT SEAMEN
WITHOUT CAUSE

Official Report From Commander of Gunboat at Mazatlan Places Blame on Mexican Officials.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)

Washington, June 22.—Commander Kavanaugh of the gunboat Annapolis, in a report reaching the navy department today on the incident at Mazatlan, Sunday, when a boat from the Annapolis was fired on and two American officers seized, said his men were attacked without provocation by Mexican customs officers and soldiers.

Commander Kavanaugh's report, transmitted by Admiral Winslow from San Diego, concluded with the statement that Mazatlan was reported wild with excitement, and practically every Mexican armed.

Text of Report. The report says: "The governor issued a manifesto that officers were not to land and a guard was placed on the dock. I sent ashore Ensign Kessing to parley with the Mexicans and to ask them to send for the acting American consul or for one of the Mexican officials so as to arrange for American citizens coming off to the ship. I sent Paymaster Mowat with the party as interpreter, no trouble being anticipated as the Mexicans have not molested earlier boats.

"I ordered the boat officer to keep clear of the landing so that his boat could not be rushed, and I forbade him to enter the town, the plan being that the boat was to be well clear of the dock and the officers therein to confer with party on shore. By my orders arms were carried concealed in the boat and boat officers had positive orders to keep them hidden, and not to use them unless fired upon, in which case he was to

return the fire. The boat was a motor sailing launch with crew of three men.

"Coxswain of boat reports that after brief parley, Mowat, the interpreter, informed Kessing that the Mexicans said it would be all right for them to land. They did so and were immediately seized. Kessing ordered the boat to return to ship and report what had happened. When the Mexicans saw the boat start off they motioned it to return. Coxswain told them to wait a minute and kept heading for the ship.

Mexicans Open Fire. "When boat was about 100 feet clear from dock, the Mexican custom official in uniform fired his revolver at the boat, bullet striking near it. Five or six shots were immediately fired at the boat by Mexican soldiers. Boatwain's Mate Laughter, who was senior in the boat, then ordered the fire to be returned and this was done. Mexicans fled from the dock and taking cover behind wall and in dock warehouse opened lively fire on boat. Mexicans firing in all about 150 shots. Slaughter was hit twice, once in the arm and once through a bowels. Coxswain shot had skin barked from his finger and the boat was struck many times. In my opinion boat's crew acted properly in returning fire, as otherwise they probably all would have been killed.

Officers Are Released. "When the crew began to fire the Mexicans fled from the dock in a panic and this gave the boat a chance to get away. The American consul came off to the ship and report that General Meza claimed our people began the fight and that one man had been killed and two or three wounded. I gave him our version of the affair and assured the consul that full satisfaction would be given if the blame was ours and also in that case would express regret over the affair. I requested also that he release the two officers and send them and any American citizens who wished to come off to the Annapolis. The general allowed Kessing and Mowat to return on board at 4 p. m. Sunday, they having suffered no harm beyond threats and abuse from populace and soldiers. They were well treated by military officials. General Meza sent a polite reply to my letter saying he released the officers at my request and also that the men who fired on the boat were Japanese, now in the hospital, wounded.

Mowat and Kessing confirmed Coxswain's report except they did not know how the firing started. Laughter rallied and made a statement saying that the Mexicans ordered boat back to dock and the coxswain started to obey, but Laughter took the tiller from him when first shot was fired, striking him in the arm. After five or six more shots had been fired he gave orders to return the fire.

"Malatian is reported wild with excitement and practically every Mexican is armed."

NEW MEXICO AEROPLANE MAKES RECORD FLIGHT

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)

Columbus, N. M., June 22.—The New Mexico aeroplane, driven by E. P. Morris, of the Curtis factory, made the highest altitude flight ever made at Columbus on its test.

Major Morris, who is also an officer of the New York militia, and is recognized as one of the greatest fliers in the world, made a record of 13,200 feet above sea-level, or over 9,000 feet above the ground at Columbus. Conditions here are against high flights and the usual record made by army machines is between three and four thousand feet above the ground.

The New Mexico machine is a dual type motor, and much larger and more powerful than the average machine now in use in the army, and the officers of the New Mexico guard are especially pleased with the record made on its test flight.

Col. E. C. Abbott, commanding the First infantry, will make a trip in the machine at its next flight, and numerous other officers have expressed a desire to fly in the guard machine as soon as their turn comes. It is a magnificent looking machine and fully comes up to all expectations. A force of officers and men will be detailed at once to handle the machine, and one of the officers will be sent to the school at San Diego to take a course in aviation.

Don't Hide Them With a Veil; Reveal Them With the Othello Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by any druggist under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othello and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength othello; it is this that is sold on the money-back guarantee.
